

CPc4 Product specifications

Our rustications and chamfers produce the cleanest and sharpest finishes in the industry.

ConstruPlastic is a leader in innovative products for the precast and tilt-up industries. Our products provide flexibility to designers, allowing for a variety of design configurations in a variety of building types.

MADE OF PVC

Labor Savings

PVC provides a superior finish to wood. It releases cleanly from the concrete, and leaves no residue. The end result is a superior finish that leaves little to no finish work after the panels are lifted.

Wide Variety

Whether you're using fasteners, glue, or adhesive tape, ConstruPlastic has a variety of rustication styles and sizes for your next tilt-up or precast project!
